

I am appalled at Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary right before the election! What happened to the role of the press to educate and inform voters by presenting balanced information? This is a travesty! Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. The public's interest as a whole is clearly not being served here. If they are going to present something totally biased from the right, how about something totally biased from the left? Or how about helping voters out by cutting through the bias and trying to present the facts so they have the information they need to make up their own minds?
